LORNA WANJIRU MUCHANGI

CAREER OBJECTIVE	Continue to be a resourceful, self-motivated individual with good knowledge in computer systems; and maintain an eagerness to accept challenges, that enable me to exploit my talents, and explore the ICT field whilst learning and delivering my best performance.
INTERNSHIP OBJECTIVE	Demonstrate flexibility and integrity, and bring outstanding dedication to the organization's tasks while gaining experience in various ICT sub sections by working within a team of highly competent professionals.
SKILLS	Functional and internet Programming, Coding skills, Database systems and Computer systems architecture and Hardware maintenance.
	Website design using common programming and scripting languages.
	Network designing, developing, administration and securing using devices e.g routers, switches, firewall, hubs, repeaters, bridges and applications e.g edrawmax solutions for designing, wire shark and nmap for scanning the network.
	Agile way of working, Indulging retrospectives in my work of place and team building.
	Excellent communication and customer service skills, possessing interpersonal skills to build relationships; and forward-thinking ability to anticipate client needs.
TRAINING AND EXPERIENCE JUNE 2020 :– ROUTING AND SWITCHING HCNA AUGUST 2020 :– NETWORK SECURITY	**CERTIFICATION BY HUAWEI :- Two certifications in ROUTING AND SWITCHING HCNA and NETWORK SECURITY HCNA** I undertook two course with huawei students program were by I succeeded and I was awarded a certification. I gained basic to intermediate knowledge of networking and the network security. I am now proficient with routers, switches,hub,bridges, firewalls and network scanning applications e.g wire shark. I am good at sub netting, masking

HCNA	and so filtering packets to ensure the network is safe and no outsider or insider can by pass the firewall unauthorized.
	Front Office Staff and Student Liason At Kreston College, Nairobi Where having being proficient in all computer packages, I was charged with office management tasks as pertains data entry and management in this tertiary academic institution for hospitality training.
February – May 2018	My input ensured efficiency in data organization and retrieval, providing lesser turn-around times in registration and processing of the students.
	Further, dispensed excellent customer service by drawing on my composure and engaging in real-time problem solving for the various inquiries.
	Quality Assurance at Safaricom
Mar 2021 - Jun 2021	In Safaricom as an intern i learned the agile way of working. I also bettered my team working ability. We used applications like reetro for retrospectives and Jira for the agile way of working. I wrote sprint reports and ensured everyone else has completed there task on time.
	I was also flexible in my working ours cause of deployments hence enabling me to learn to work any time of the day.
	UI/UX Designer
Oct 2020 – Till now (On contract)	I Have experience in the UI/UX Designer field where by I have designed both mobile and web User Interface. I use Figma or Adobe xd. If we are working as a team and we need to come up with a User experience Research Mural is the app that we use to ensure everything is seamless.
	Front-End developing
August 2019 – Till now	I design and develop most of my front-end projects. I am proficient in HTML,CSS and javascript. I have experience with react javascript for an year now. I have developed a number of websites :-
	Pure HTML and CSS:-
	https://my-babey.netlify.app/
	React, Nextjs Apps
